---

WORK EXPERIENCE

PYTHON DEVELOPER INTERN | Cognifyz Technologies | LINK   **May 24 - June 24**

- Streamlined data collection and reporting procedures, reducing processing time by 20% enhancing efficiency.
- Implemented process improvements and automation solutions, resulting in 15% increase in productivity.
- Collaborated with cross-functional teams to gather requirements, define project scopes, and ensure alignment with business objectives, fostering effective teamwork and project success.
- Produced 15+ comprehensive reports and presentations summarizing findings and recommendations, facilitating clear communication with team members and driving actionable outcomes.
- Progressively solving problems from beginner to advanced levels using Python to strengthen algorithmic thinking and coding skills.

PROJECTS

AI-Powered CRM Summarizer | LINK   **June 25- July 2025**

- Developed **Pulse-Prep**, an **AI-powered CRM note summarizer** for enhancing customer relationship management.
- Extracted and condensed key information from customer interactions, including calls, meetings, and notes.
- Generated clear, actionable summaries to eliminate the need for reading lengthy CRM logs. Enabled sales and support teams to quickly understand client history and make informed decisions
- Designed to **boost productivity** and streamline client communication workflows.

CERTIFICATES

React Foundation for Next.js (Vercel) | CERTIFICATE   **March 2023**

- Mastered fundamental React concepts, proficiently utilizing **components**, **props**, **and states** for dynamic UI development.
- Acquired expertise in the component-based architecture and unidirectional data flow, enhancing front-end development capabilities.

Java Programming (Infosys) | CERTIFICATE   **March 2023**

- Built a strong foundation in core Java programming, applying **classes**, **objects**, and **control structures** to create functional programs.
- Gained hands-on experience with **OOP** concepts and developed a clear understanding of Java's modular and reusable code structure to support scalable development.

Google Cloud Computing Foundation (Google) | CERTIFICATE   **March 2023**

- Gained foundational knowledge of the Google Cloud ecosystem, including compute, storage, and networking services.
- Developed understanding of resource management, IAM (Identity and Access Management), and billing fundamentals

Digital Skills : Digital Marketing (Accenture) | CERTIFICATE   **March 2023**

- Developed a comprehensive understanding of digital marketing fundamentals, including the customer journey, online presence, and target audience engagement.
